

Muthukaruppan

✉ muthukaruppanv7@gmail.com 📄 in/muthukaruppanv

SUMMARY

• **B.Tech** Information Technology student skilled in **Java, JavaScript, SQL, HTML, CSS, PHP, and Git/GitHub**. Hands-on experience developing **full-stack web and AI-powered projects** through academic projects and industry-oriented programs. Interested in building practical software solutions using modern technologies.

EXPERIENCE

Technology Virtual Experience Program

Deloitte

- Processed **telemetry data and JSON files** to support dashboard development and data analysis.
- Performed **requirements analysis** and translated business requirements into a proposed **telemetry dashboard solution**.
- Explored **AWS cloud architecture** and prepared a technical architecture proposal based on application requirements.

Startup Training

Y Combinator

December 2025 - January 2026

- Developed skills in **product thinking, problem-solving, teamwork, and startup practices**.
- Analyzed real-world case studies of successful venture-backed startups to identify key factors contributing to rapid growth and scalable business models.
- Conducted market validation interviews with prospective customers to gather insights on pain points, informing iterative improvement of prototype solutions and go-to-market strategy.

PROJECT

AI Interview Platform – Intelligent Mock Interview System

August 2026 - Present

- *Technologies: Java, JavaScript, HTML5, CSS3, SQL.*
- Designed an **AI-powered platform** for technical and HR interview practice.
- Implemented **role-based questions, feedback, performance evaluation, and progress tracking**.
- Developed a **responsive user interface** Integrated a question bank management module, enabling administrators to easily add, modify, and categorize questions by topic and difficulty for dynamic practice sessions.

Missing Person Identification & Reporting System

github.com/muthukaruppanV07/ai-missing-person-finder • July 2026 - August 2026

- *Technologies: PHP, JavaScript, HTML5, CSS3, MySQL, SQL.*
- Developed a web platform for authentication, registration, photo upload, and database management.
- Designed searchable records for case tracking and information retrieval.
- Explored AI facial recognition for potential person matching.

EDUCATION

Bachelor of Technology – Information Technology

Tamilnadu College Of Engineering • 2028

CERTIFICATIONS

Front-End Software Engineering Job Simulation

Skyscanner • 2026

Gen AI Powered Data Analytics Job Simulation

Tata • 2026

Foundations of Web Development: CSS, Bootstrap, JavaScript & React

Udemy • 2025

Technology Consulting Job Simulation

Accenture • 2025

SKILLS

Languages: Java, JavaScript, PHP, Python, SQL.

Frontend: HTML5, CSS3, React.js, Responsive Web Design

Backend: Java, JDBC, PHP, Spring Boot, REST APIs

Database: MySQL, SQL

Tools: Git, GitHub, VS Code, Replit

Core: Data Structures & Algorithms, OOP, DBMS, Computer Networks, Operating Systems
